- Set and regularly review environmental targets;
- Document, implement and regularly review the company's environmental management system.

Arrangements to Maintain the Environmental Management System

In order to fulfil our environmental obligations, the company will endeavour to:

- Conserve energy wherever possible;
- Implement waste-saving protocols for example by ensuring all appropriate material that can be recycled is recycled;
- Integrating environmental considerations into our decision making process, including through purchasing, design, planning and implementation of our activities
- Forming close relationships with our contractors and suppliers to encourage the adoption of best environmental practices
- Wherever possible use suppliers and contractors with sustainable management records.
- Continually improving our environmental performance through: - Minimising waste production by attempting to reduce, reuse and recycle waste before applying the final option of safe disposal to landfill
- Communicate this Environmental Policy to our employees and contractors.
- Provide appropriate training to our employees to enable them to implement this environmental policy.
- Focus on objectives to support this policy, regularly review them and show continuing effectiveness of the Environmental Management System through the Management Review meetings.
